TESTIMONIALS

JEANETTE ASPIN - PROPERTYSCOUTS

"We came across Turboweb after reading about their Content Management tool in the local newspaper. I contacted Paul and was impressed by his knowledge of how to improve our business presence on the web, as well as making the process for updating content on our

website quick and painless. In the past we had to pay someone to make changes, and that got expensive. The Turboweb team are approachable and really know their stuff! They continue to make recommendations on how we can improve our web presence, and are particular to the presence and are particular to the presence.

and are readily available for any queries we may have."

TRACEY MCNAMARA - STONELINE NEW ZEALAND AND AUSTRALIA

"We were so impressed with Turboweb's service and flexibility within the SWM sites that we changed all our functioning sites to their format. It is great to deal with

"geeks" that understand that we don't speak programmers' language and nor do we have a desire to! But the real gem was the simplicity as the sites are just so easy to negotiate and use.

We had used other companies in the past, but found the upload speed with Turboweb actually increased my desire to keep my website up to date all the time as it is a pleasure to use in real time! The Turboweb team solved a lot of our PayPal problems and thanks to them our web sales are up and the reporting function is a real asset."

SWM MODULES TO ENHANCE YOUR WEBSITE

Analytics weekly or monthly statistics sent by email to you, powered by Google.
